Project Name AI Powered Debt Relief & Financial Recovery Platform	Maximum Marks 3 Marks

Project Initialization and Planning Phase

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am (Customer)	Applicant seeking a loan	But	Married with no co-applicant income	Which makes me feel	Optimistic about loan approval
Problem Statement (PS)	I'm trying to	Secure a loan for property	Because	Self-employed with a good credit history	
PS-1	A borrower facing financial difficulties and multiple loan repayments.	Manage my debts, analyze my financial health, and find the best settlement option.	I don't know which repayment strategy is suitable or how to negotiate with lenders effectively.	Financial calculations are complicated, and I don't have access to personalized financial guidance or negotiation support.	Stressed, uncertain about my financial future, and worried about becoming debt-free.
